

MOBILE EQUIPMENT

Table/Phone

The easiest way to take credit cards on the go.

Practical Business Solutions has various tools and programs to help you take your check-out process to wherever your customers may be.

The time has come for your cash register to do more than just ring up a sale. With the mobile checkout options provided by Practical Business Solutions, your sales can be handled through tablet-based, cloud-connected POS systems that allow you to reach your customers and close a sale, wherever you are! The integrated Back Office application will provide you access to all of your important data, whether your or on the road, in the office or sitting comfortably at home.
