

DIGITAL DONATION HARDWARE

Table Kiosk

With a 15" LCD touch screen terminal and an integrated card reader, this low-profile design fits in the tightest of spaces and is perfect for high traffic areas or off site fundraising. Add on's include WiFi and a VESA wall mount.

Table Kiosk Plus

This 15" LCD touch screen terminal has an integrated thermal printer for organizations that want to provide their donors with a printed receipt. Add on's include an optional WiFi adapter.

Table Kiosk Pro

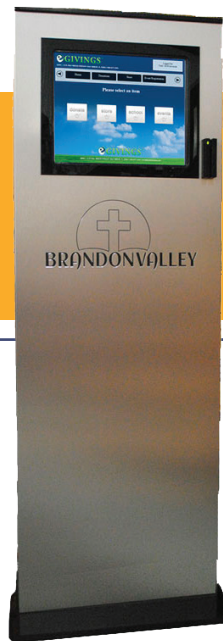

Organizations looking for a sleek bezel free design, consider this unit. It has a slimmer overall footprint with the ability to be configured to the optimal angle and space. Add on's include an optional VESA mount for wall mount capability and a WiFi adapter.

Pedestal Kiosk

The Pedestal Kiosk is one of our most versatile kiosks with a 21" high resolution multi-touchscreen computer that can be displayed in portrait or landscape mode.

Branding options include placing your logo or messaging along the center of the pedestal stand..

The Tower Kiosk

The ClearGIVE Tower Kiosk is our #1 seller for a reason and that is because it attracts a lot of attention with its sleek modern design. The Tower Kiosk is available with either a 17" or 21" touchscreen monitor.

This model can be customized in five colors and branding options include: vinyl, engraved logo or full kiosk wrap.

iPad Kiosk

The ClearGIVE iPad Kiosk provides you with the same functionality as our full size kiosk but has the design and sleekness of Apple's iconic iPad.

iPad Floor Kiosk

Completely locks down and secures the iPad. We can laser engrave your logo on the stand for maximum branding. Available in both black & white.
